866-361-3699 ext 241
techsupport@dynastyspas.com

In an effort to continue improving the products we offer, the following change or recommendation has been made.

Spa Models

Affected: All standard spa models with
a PRO cover

Effective Date: Immediately-Running Change

All PRO (6" to 4") covers will change to an XPRO (5" to 3") for standard spas. Swimspa covers will continue as PRO (6" to 4"). Deluxe covers will remain unchanged.

All covers have been assigned new item numbers. A conversion chart from old item numbers to new item numbers will be provided

In an effort to continue improving the products we offer, the following change or recommendation has been made.

Spa Models

Affected: All swim spas with Elite Cabinets

Effective Date: Immediately

Currently the cabinet corners are black on all Elite cabinet color options.

Now the corner color will match the side panel color.

In an effort to continue improving the products we offer, the following change or recommendation has been made.

Spa Models

Affected: All one pump spa models

Effective Date: Immediately-Running Change

Currently the one pump spa models are equipped with a K-362 LCD topside control display.

As inventory is depleted of the K-362, these will be upgraded to the K-506 full color topside control display to match the display currently used on the two pump models.

In an effort to continue improving the products we offer, the following change or recommendation has been made.

Spa Models

Affected: All models

Effective Date: Immediately-Running Change

The current insulation package utilizes the QL Insulation Shield(recycled denim) product as the primary insulating material.

As the inventory is depleted the QL Insulation Shield will be upgraded to the RMAX material.

RMAX® Heatshield™
insulation system

HEATSHIELD

- Up to 7 times the R-Value of other hot tubs on the market
- Lower operating cost
- Added protection against freezing
- Easy access for servicing
- Acts as a sound barrier

In an effort to continue improving the products we offer, the following change or recommendation has been made.

Spa Models

Affected: One pump standard spa models
and swim spa models

Effective Date: Immediately-Running Change

Currently multiple sizes of light lens are used
throughout the product line.

3" lens on one pump models

5" lens on two pump models

2", 3", 5", and 7" lens on swim spa models

As inventory is depleted, the 5" lens will
become standard on all models.
